'Chapter 3b Properties of Excitable Membranes Spikes

May 1st, 2018 - In the experiment shown in Figure 3 8 only very small amounts of current were passed through the membrane and these caused only small changes in membrane potential If greater currents are used some new phenomena show up in the recordings'

'Muscle Contraction Regulation

*May 2nd, 2018 - References Aidley DJ 1998 The Physiology of Excitable Cells 4th edn Cambridge Cambridge University Press Geeves MA and Holmes KC 2005 The molecular mechanism of muscle contraction"***Ion Channels of Excitable Membranes 9780878933211 February 25th, 2013 - Ion Channels of Excitable Membranes 9780878933211 Medicine and Health Science Books Amazon com'**

'Muscle contraction Wikipedia

May 2nd, 2018 - Muscle contraction is the activation of tension generating sites within muscle fibers In physiology muscle contraction does not necessarily mean muscle shortening because muscle tension can be produced without changes in muscle length such as holding a heavy book or a dumbbell at the same position'
